Vehicle Walk-Around Training Guide

Sell the Experience—Not Just the Vehicle

11 practical steps • benefit-driven scripts • customer questions

Sell the Experience—Not Just the Vehicle

Purpose

A professional walk-around builds excitement, creates emotional ownership, and helps the customer see the vehicle as the solution to their needs. The goal is to engage the customer—not deliver a memorized presentation.

How to use this guide

Use each step as a conversation guide, not a speech. Let the customer participate, connect features to their real life, and ask questions that keep the presentation moving in both directions.

The walk-around rhythm

- ☐ Show the vehicle.
- ☐ Connect the feature to the customer.
- ☐ Ask a question.
- ☐ Listen, then continue.

STEP 1: Set the Stage

Smile and begin with enthusiasm.

EXAMPLE:

"Before we head out for a test drive, let me show you a few features that I think you'll really appreciate based on what you told me you're looking for."

Goal: Get the customer involved from the start.

STEP 2: Start at the Front**HIGHLIGHT:**

- ☐ Styling
- ☐ Headlights (LED, adaptive, auto high beams)
- ☐ Grille design
- ☐ Safety sensors
- ☐ Camera systems

ASK:

"What stands out to you about the front design?"

STEP 3: Driver's Side**DISCUSS:**

- ☐ Wheel design
- ☐ Tire size
- ☐ Blind Spot Monitoring
- ☐ Keyless entry
- ☐ Remote start
- ☐ Fuel door

ASK:

"Have you ever had remote start before?"

STEP 4: Rear of Vehicle**COVER:**

- ☐ Cargo space
- ☐ Hands-free liftgate
- ☐ Backup camera
- ☐ Parking sensors
- ☐ Fold-flat seats
- ☐ Spare tire or inflator kit

ASK:

"Will this cargo space fit what you normally carry?"

STEP 5: Passenger Side**MENTION:**

- ☐ Child safety features
- ☐ Rear seat room
- ☐ USB charging ports
- ☐ Rear climate controls

Tie features back to their lifestyle.

EXAMPLE:

"Since you mentioned your kids travel with you, they'll probably enjoy these rear charging ports."

STEP 6: Interior**BEFORE SITTING DOWN:**

- ☐ Open the driver's door.
- ☐ Invite them in.

COVER:

- ☐ Comfortable seating
- ☐ Power seats
- ☐ Heated/Ventilated seats
- ☐ Steering wheel controls
- ☐ Memory seating
- ☐ Visibility

STEP 7: Technology**DEMONSTRATE:**

- ☐ Touchscreen
- ☐ Apple CarPlay
- ☐ Android Auto
- ☐ Bluetooth
- ☐ Voice commands
- ☐ Navigation
- ☐ Wireless charging
- ☐ Digital gauges

INSTEAD OF SAYING:

"It has Apple CarPlay."

SAY:

"Once your phone connects, your maps, music, and messages appear right on the screen so you don't have to touch your phone while driving."

Always explain the benefit, not just the feature.

STEP 8: Safety

Cover only the features that matter most.

EXAMPLES:

- ☐ Adaptive Cruise Control
- ☐ Lane Keep Assist
- ☐ Forward Collision Warning
- ☐ Blind Spot Monitoring
- ☐ Rear Cross Traffic Alert
- ☐ Automatic Emergency Braking

Tie them back to real-life situations.

STEP 9: Under the Hood (Optional)

Keep it simple.

DISCUSS:

- ☐ Engine
- ☐ Horsepower
- ☐ Fuel economy
- ☐ Warranty
- ☐ Maintenance intervals

Avoid overwhelming customers with technical details.

STEP 10: Build Ownership

Ask questions that encourage the customer to picture themselves owning the vehicle.

EXAMPLES:

- ☐ "Can you picture taking this on your next road trip?"
- ☐ "How would this fit into your daily routine?"
- ☐ "Would this have enough room for your family?"
- ☐ "Can you see yourself driving this every day?"

The goal is to shift from looking at a vehicle to imagining ownership.

STEP 11: Transition to the Test Drive**SAY:**

"Now that you've seen the features, let's see how it feels on the road. That's usually where people really fall in love with the vehicle."

BLAMO Walk-Around Tips

Use these reminders to keep the presentation customer-centered.

- ☐ Let the customer participate.
- ☐ Ask questions every few minutes.
- ☐ Don't rush.
- ☐ Match your presentation to the customer's needs.
- ☐ Focus on benefits over specifications.
- ☐ Build emotion—not information overload.
- ☐ Keep it conversational.
- ☐ Smile and stay enthusiastic.

BLAMO Rule

Features tell. Benefits sell. Questions close.

Every feature you demonstrate should answer one question:

"How does this improve the customer's life?"

Close with Clarity. Not Pressure.
